The Flower of Life – over 2,000 years old
Sacred Geometry - blueprints for life and existence

- The mystical and cosmic channel of winking vaginas (!)
- Energy channel that gets activated when you are doing your excellence.
- Infinite possibilities that expand/link when you know your purpose in life.
- Channel of joy expressed with others when you trust them.
- Hidden channel of procreative potential when we share our excellence.
- What happens when you have excellence to offer others.
- Where the party is at when trust and respect are expressed equally to all.

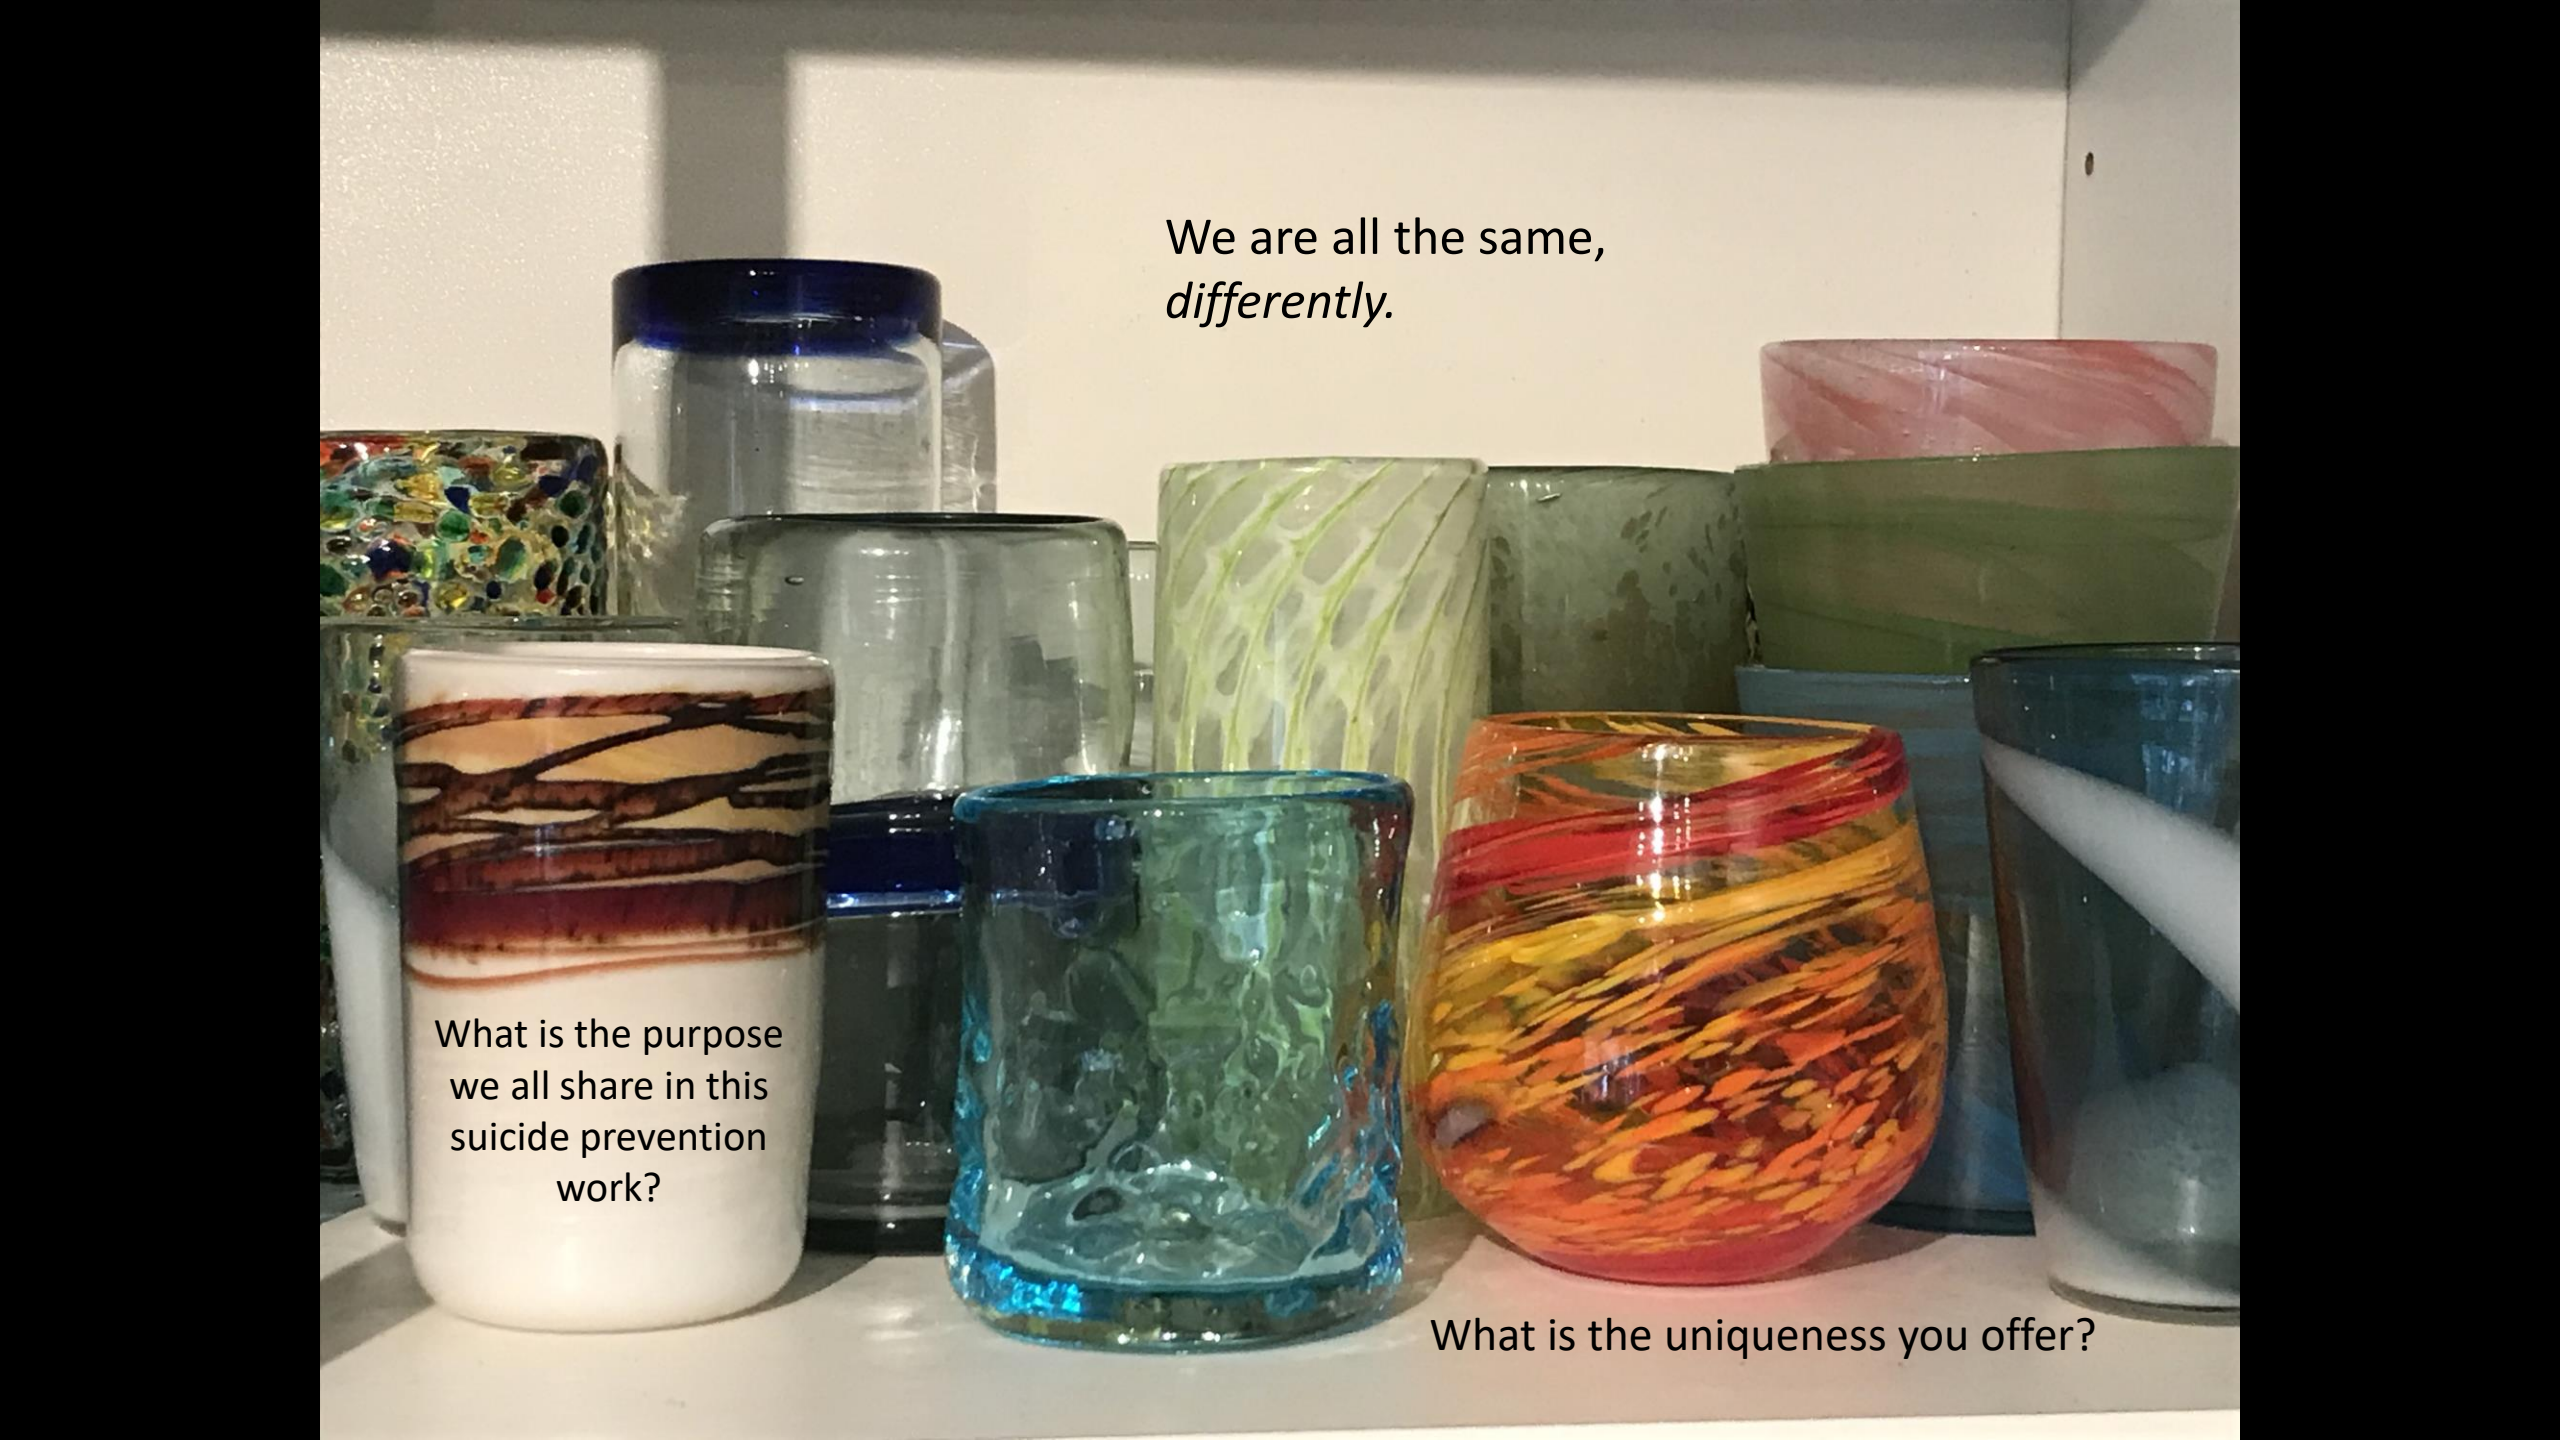

What I learned from our Hoesa Ea Youth Food Sovereignty 5-day event:

- Collective transformation through individual excellence.
- Individual transformation through collective excellence.

What's the big deal?

What is the role of conflict in our lives and how do we respond to it?

A collection of various colorful and patterned glass mugs is arranged on a white surface. The mugs feature different designs, including solid colors, marbled patterns, and abstract shapes. The colors range from blues and greens to oranges and reds. The lighting is soft, creating gentle shadows on the surface.

We are all the same,
differently.

What is the purpose
we all share in this
suicide prevention
work?

What is the uniqueness you offer?

A close-up photograph of rippling sand on a beach. The sand is light brown and shows intricate, wavy patterns created by the wind. The lighting is bright, highlighting the texture and shadows of the ripples. In the center of the image, there is a black rectangular text box with white text.

Do you see the potential of our times?

A photograph showing the dark silhouettes of several large, gnarled trees in the foreground. The background is a bright, uniform orange color, representing a sunset or sunrise. The trees are scattered across the frame, with some leaning and others standing upright. The overall mood is serene and dramatic.
